

**A great new idea to enhance your Enterprise experience.
Give your customers professional looking “Return For Service” labels.**

Zebra TLP-2824 Thermal Printer

Part #: Zebra – TLP-2824 - \$ 495.00 USD

A Perfect Fit on Any Desktop. Big Performer in a small package. TLP-2824 desktop printer comes in a compact size at an affordable price. Simple to use and a great choice for bar code label novices, this direct thermal printer is ideal for Enterprise’s quick label program already built into to your POS system. Great for Oil & Lube reminders and Part Warranty info. Labels are static and can be purchased with or without a company logo.

- Standard Memory: 4MB DRAM and 4MB Flash
 - 32-bit processor
 - Flash Upgradeable Firmware
 - One RS232 Serial, one bi-directional parallel and one USB port.
 - Optional Zebra Net Print Server II Ethernet connection
 - Environments: Windows /98/ME/XP
- Keyboard Extra

The ultra-compact TLP 2824-Z™ bar code label printer, for print widths up to 2.2 inches/56 mm, brings powerful performance to applications requiring both direct thermal and thermal transfer printing. Its ease of use, including its OpenACCESS® design and clear media window for simple media loading and monitoring, makes the TLP 2824-Z a fool-proof means to increased workplace efficiency.

The TLP 2824-Z integrates easily into a variety of printing applications, including retail point of sale, shelf labeling, product marking, inventory control and asset management, small office mailing, shipping and file labeling. With serial, parallel, and USB interfaces, plus network connection options, the TLP 2824-Z meets a variety of connectivity needs.

It will keep your company information in front of your customers every time they drive their car. This can serve as a reminder of when to schedule service again and a guide to whom to call for other vehicle service needs. It is also a quick reference when a family member or friend asks for a referral.

Pkg. Price Includes:
